Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The Leader in Me is that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught The 7 Habits of Highly Effective People to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to live well.

The field of Second Language Teacher Education (SLTE) is mainly concerned with the professional preparation of L2 teachers. In order to improve teaching in the multilingual and multicultural classroom of the 21st century, both pre- and in-service L2 teachers as well as L2 teacher educators must be prepared to meet the new challenges of education under the current circumstances, expanding their roles and responsibilities so as to face the new complex realities of language instruction. This volume explores a number of key dimensions of EFL teacher education. The sixteen chapters discuss a wide variety of issues related to second language pedagogy and SLTE. Topics discussed include the importance of SLA research; competency-based teacher education approach; classroom-based action research; SLTE models; the value and role of practicum experience abroad; the models of pronunciation teaching; multicultural awareness and competence; the influence of teachers' cognitions, emotions and attitudes on their emerging and changing professional identities; the potential of classroom materials and technology; and CLIL and ESP teacher education. English as a foreign language teacher education: Current perspectives and challenges will be of interest to teachers-in-training, teachers, teacher educators and to those educational researchers interested in how L2 teaching is actually learned in professional preparation programmes. Juan de Dios Martínez Agudo is Associate Professor of EFL Teacher Education at the University of Extremadura, Spain. His current research interests include Second Language Acquisition and English Teaching Methodology. His most recent books are Oral Communication in the EFL Classroom (2008), Errors in the Second Language Classroom: Corrective Feedback (2010) and Teaching and Learning English through Bilingual Education (2012).

John Dewey's Democracy and Education addresses the challenge of providing quality public education in a democratic society. In this classic work Dewey calls for the complete renewal of public education, arguing for the fusion of vocational and contemplative studies in education and for the necessity of universal education for the advancement of self and society. First published in 1916, Democracy and Education is regarded as the seminal work on public education by one of the most important scholars of the century.
