This extensive bibliography and reference guide is an invaluable resource for researchers, practitioners, students, and anyone with an interest in Canadian film and video. With over 24,500 entries, of which 10,500 are annotated, it opens up the literature devoted to Canadian film and video, at last making it readily accessible to scholars and researchers. Drawing on both English and French sources, it identifies books, catalogues, government reports, theses, and periodical and newspaper articles from Canadian and non-Canadian publications from the first decade of the twentieth century to 1989. The work is bilingual; descriptive annotations are presented in the language(s) of the original publication. Canadian Film and Video / Film et vidéo canadiens provides an in-depth guide to the work of over 4000 individuals working in film and video and 5000 films and videos. The entries in Volume I cover topics such as film types, the role of government, laws and legislation, censorship, festivals and awards, production and distribution companies, education, cinema buildings, women and film, and video art. A major section covers filmmakers, video artists, cinematographers, actors, producers, and various other film people. Volume II presents an author index, a film and video title index, and a name and subject index. In the tradition of the highly acclaimed publication *Art and Architecture in Canada* these volumes fill a long-standing need for a comprehensive reference tool for Canadian film and video. This bibliography guides and supports the work of film historians and practitioners, media librarians and visual curators, students and researchers, and members of the general public with an interest in film and video.

A book that lists French language words and gives their equivalent in English, and English language words with their

equivalent in French.

*Authors and Subjects* John Wiley & Sons

Before Bush and Iraq, there was Nixon and Vietnam. It's 1969.

The Vietnam War has turned into a meat grinder, 250,000 protesters are marching on Washington to confront a defiant President Nixon holed up in the White House, and Alden Maytree, fresh out of Catholic seminary, has passed his pre-induction physical. Just before Uncle Sam drafts him, he gets a surprise call. Instead of killing commies in Vietnam, how about spending two years next door in exotic Thailand, the "Land of Smiles," as a Peace Corps Volunteer? But when he arrives in Bangkok, he discovers he can't escape the war and clashes with Peace Corps, the U.S. Embassy and the CIA. Land of Smiles is a memoir of one young man's coming of age during the Boomer generation's war and the painful lessons he and America both learn as they try to save the world.

**Proceedings of The Academy of Natural Sciences (Part III - Oct.-Dec., 1889)** Good Press

Reprint of the original, first published in 1871.

**The Royal Dictionary Abridged ... I. French and English. II. English and French ... The Second Edition ... Corrected, and Improved with Above Fifteen Hundred English Words ... As Also, an Alphabetical List of the Most Common Christian Names of Men and Women, Etc** Routledge

"Mediæval Heresy & the Inquisition" by Arthur Stanley Turberville provides an account of the heresies of the Middle Ages and of the attitude of the Church towards them in a concise way. The book is, therefore, a brief essay in the history not only of dogma but, judgment as well through its comments on the inquisition and the many innocent lives that were lost to it. This historical text is a valuable resource for history students and those who wish to understand the dark ages.

*Index-catalogue of the Library of the Surgeon General's Office, United States* University of Toronto Press

The analysis of UNESCO's audio-visual archives for their digitization has brought to light a forgotten album of 38 contact sheets and accompanying texts by Magnum photographer, David "Chim" Seymour - a reportage made in 1950 for UNESCO on the fight against illiteracy in Italy's southern region of Calabria. A number of his photographs appeared in the March 1952 issue of UNESCO Courier in an article written by Carlo Levi, who had gained worldwide fame with his novel *Christ Stopped at Eboli* (1945). L'analyse des archives audio-visuelles de l'UNESCO en vue de leur numérisation a permis de découvrir un album oublié comprenant 38 planches-contact et des textes d'accompagnement du photographe de Magnum David « Chim » Seymour - un reportage réalisé en 1950 pour l'UNESCO sur la

bataille contre l'analphabétisme en Calabre, une région du sud de l'Italie. Un certain nombre de ses photographies ont été publiées dans le numéro de mars 1952 du *Courier de l'UNESCO* avec un article de Carlo Levi, dont le roman *Le Christ s'est arrêté à Eboli* (1945) lui avait valu une renommée internationale

*New Parallel Dictionaries of the Russian, French, German and English Languages* BoD - Books on Demand

*Agricultural Economists in Early Twentieth-Century Italy* describes how Italian agricultural economists collected information about the economy of Italy, between the Giolittian and the Fascist era. The book carefully describes three main forms of economic observation: enquiries, statistics, and farm surveys. For each of these forms of observation, the main participants to the investigation are discussed with their respective agendas, alongside the purposes of the investigation, and its practical constraints. This work introduces the concept of "stakeholder statistics", and stresses the two-way relation between the observer and the observed in the co-production of observational knowledge. Practices of observation developed together with agricultural economics as a discipline and a profession. The study of forms of investigation therefore shed light on the constitution of a coherent and self-conscious group of agricultural economists in Italy, and the scientific and methodological alliances they forged with agricultural economists elsewhere in Europe. Thanks to ambitious research projects, Ghino Valenti in the Giolittian period, and Arrigo Serpieri, after the First World War, led the transformation of Italian agricultural economists from agents of estate owners, to social and economic experts in the service of the Italian state. The group of agricultural economists who gathered around Serpieri played an important role in supplying the ideology of the agricultural elites with economic content, especially after the First World War, along lines that resemble the development of agrarian ideologies in other countries of Central Europe. This work discusses how observation entered the political debate on agricultural policies of the Fascist regime, namely the so-called Ruralismo.

DigiCat Publishing presents to you this special edition of "Essays in Literature and History" by James Anthony Froude. DigiCat Publishing considers every written word to be a legacy of humankind. Every DigiCat book has been carefully reproduced for republishing in a new modern format. The books are available in print, as well as ebooks. DigiCat hopes you will treat this work with the acknowledgment and passion it deserves as a classic of world literature.

Academy of Natural Sciences

The Portrayal of the Child in Children's Literature (Proceedings of the 6th Conference of the Irscl Bordeaux, 1983).

**Canadian Film and Video** Mechanics of Rubber Bearings for Seismic and Vibration Isolation

The International Committee on Large Dams (ICOLD) held its 26th International Congress in Vienna, Austria (1-7 July 2018). The proceedings of the congress focus on four main questions: 1. Reservoir sedimentation and sustainable development; 2. Safety and risk analysis; 3. Geology and dams, and 4. Small dams and levees. The book thoroughly discusses these questions and is indispensable for academics, engineers and professionals involved or interested in engineering, hydraulic engineering and related disciplines.

**News** The Museum of Modern Art

Reprint of the original, first published in 1872. The publishing house Anatoposi publishes historical books as reprints. Due to their age, these books may have missing pages or inferior quality. Our aim is to preserve these books and make them available to the public so that they do not get lost.

**Biographie Universelle, Ancienne Et Moderne** CRC Press

Widely used in civil, mechanical and automotive engineering since the early 1980s, multilayer rubber bearings have been used as seismic isolation devices for buildings in highly seismic areas in many countries. Their appeal in these applications comes from their ability to provide a component with high stiffness in one direction with high flexibility in one or more orthogonal directions. This combination of vertical stiffness with horizontal flexibility, achieved by reinforcing the rubber by thin steel shims

perpendicular to the vertical load, enables them to be used as seismic and vibration isolators for machinery, buildings and bridges. Mechanics of Rubber Bearings for Seismic and Vibration Isolation collates the most important information on the mechanics of multilayer rubber bearings. It explores a unique and comprehensive combination of relevant topics, covering all prerequisite fundamental theory and providing a number of closed-form solutions to various boundary value problems as well as a comprehensive historical overview on the use of isolation. Many of the results presented in the book are new and are essential for a proper understanding of the behavior of these bearings and for the design and analysis of vibration or seismic isolation systems. The advantages afforded by adopting these natural rubber systems is clearly explained to designers and users of this technology, bringing into focus the design and specification of bearings for buildings, bridges and industrial structures. This comprehensive book: includes state of the art, as yet unpublished research along with all required fundamental concepts; is authored by world-leading experts with over 40 years of combined experience on seismic isolation and the behavior of multilayer rubber bearings; is accompanied by a website at [www.wiley.com/go/kelly](http://www.wiley.com/go/kelly) The concise approach of Mechanics of Rubber Bearings for Seismic and Vibration Isolation forms an invaluable resource for graduate students and researchers/practitioners in structural and mechanical engineering departments, in particular those working in seismic and vibration isolation.

**Bibliography of the History of Medicine** BoD - Books on Demand

This visually compelling publication highlights The Museum of Modern Art's unparalleled collection of prints and books by William Kentridge - nearly fifty works spanning the past three decades.

The book also features a succession of artistic interventions made by Kentridge especially for the occasion. Kentridge's practice brings together drawing, film animation, books, sculpture and performance. Too little known is the extent to which the artist applies his astonishing draftsmanship to the techniques of printmaking, including etching, screenprinting, lithography and linoleum cut. In fact printmaking has always been essential to his work, from his first forays into visual art in the 1970s to his recent large-scale operas. Kentridge's love of the printed image extends to an embrace of books. He often draws and prints on unbound pages from encyclopaedias, ledgers and the like, the readymade support adding nuance and complexity to his work. He has extended these practices in William Kentridge: Trace, using translucent pages interspersed throughout the book to respond to his prints reproduced between them in a visual dialogue between the past and the present. The book also includes an essay, an annotated checklist, a chronology and the text of a lecture by Kentridge on printmaking, illuminating its relevance to his broader practice. The publication coincides with the Museum's presentation of the touring exhibition William Kentridge: Five Themes. MoMA's presentation will be unique in its addition to the numerous collection works, including most of the prints reproduced in this volume.
