JUNE KYLAN

The Chautauquan Ivan R. Dee

Combining cultural history and literary analysis, this study proposes a new and thought-provoking reading of the changing relationship between Germans and Jews following the Holocaust. Two Holocaust survivors whose work became uniquely successful in the Germany of the 1980s and 1990s, Grete Weil and Ruth Kluger, emerge as exemplary in their contributions to a postwar German discussion about the Nazi legacy that had largely excluded living Jews. While acknowledging that the German audience for the works of Holocaust survivors began to change in the 1980s, this study disputes the common tendency to interpret this as a sign of greater willingness to confront the Holocaust, arguing instead that it resulted from a continued German misreading of Jews' criticisms. By tracing the particular cultural-political impact that Weil's and Kluger's works had on their German audience, it investigates the paradox of Germany's confronting the Holocaust without necessarily confronting the Jews as Germans. Furthermore, for the authors this literature also had a psychological impact: their 'return' to the German language and to Germany is read not as an act of mourning or nostalgia, but rather as a public call to Germans for a dialogue about the Nazi past, as a way to move into the public realm the private emotional and psychological battles resulting from German Jews' exclusion from and persecution by their own national community.

German-Jewish Literature in the Wake of the Holocaust W. W. Norton & Company

This is the first book to study how Haitian authors – from independence in 1804 to the modern Haitian diaspora – have adapted Greco-Roman material and harnessed it to Haiti's legacy as the world's first anti-colonial nation-state. In nine chronologically organized chapters built around individual Haitian authors, Hawkins takes readers on a journey through one strand of Haitian literary history that draws on material from ancient Greece and Rome. This cross-disciplinary exploration is composed in a way that invites all readers to discover a rich and exciting cultural exchange that foregrounds the variety of ways that

Haitian authors have 'hacked classical forms' as part of their creative process. Students of ancient Mediterranean cultures will learn about a branch of the Greco-Roman legacy that has never been deeply explored. Experts in Caribbean culture will find a robust register of Haitian literature that will enrich familiar texts. And those interested in anti-colonial movements will encounter a host of examples of artists creatively engaging with literary monuments from the past in ways that always keep the Haitian experience in central focus. Written in a broadly accessible style, *Hacking Classical Forms in Haitian Literature* appeals to anyone interested in Haiti, Haitian literature and history, anti-colonial literature, or classical reception studies.

The Academy and Literature Good Press

This multidisciplinary handbook pulls together in one volume the research on children's and young adult literature which is currently scattered across three intersecting disciplines: education, English, and library and information science.

Antigone Taylor & Francis

One of the greatest, most moving of all tragedies, *Antigone* continues to have meaning for us because of its depiction of the struggle between individual conscience and state policy, and its delicate probing of the nature of human suffering. Mr. Rudall's splendid translation brings a new power and speakability to Sophocles' prose.

Antigone by Jean Anouilh (Book Analysis) AntigoneThe Antigone of SophoclesAntigone by Jean Anouilh (Book Analysis) The third edition of this popular book again takes a balanced, comprehensive approach to teaching English—one that creates a bridge between theory/background and practices that reflect today's diverse, challenging high school classrooms. This book has been praised for its unique components: discussion of "four

stages"; of reading texts and "three phases"; of teaching texts. The authors' many years of experience teaching English are obvious throughout the material, but nowhere more so than in their straightforward presentation of organization and planning for instruction and their firm stand on teaching grammar. This book covers the challenging and the controversial in English instruction and explores censorship, national standards, high-stakes testing, multi-lingual students, and multicultural literature. For professionals in the field of teaching.

The Poetical gazette; the official organ of the Poetry society and a review of poetical affairs, nos. 4-7 issued as supplements to the Academy, v. 79, Oct. 15, Nov. 5, Dec. 3 and 31, 1910

Antigone Manchester University Press

The Circle of Knowledge is an informative book that was designed in 1917, to be both inspiring and entertaining. The book represents the modern, progressive spirit which fits that time, in its forms of expression and its editorship. The purpose of this work is to answer the why, who, what, when, where, how of the wide majority of curious minds, both young and adult, and encourage them to raise further questions. Special measures were taken in creating this work to isolate essentials from non-essentials; to differentiate human interest subjects of universal significance from those of little concern; to deliver living truths instead of dead vocabulary; and finally, to bring the whole within the knowledge of the intermediate reader, without regard to age, in an acceptable and exciting form. The use of visual outlines and tables; maps, drawings, and diagrams; the illustrated works of great painters, sculptors, and architects all are used to give the reader the valuable and cultural knowledge of past and present.

Divine love explores the work of Luce Irigaray from the perspective of religious studies. The book examines the development of religious themes in Irigaray's work from *Speculum of the Other Woman*, in which she rejects traditional forms of western religion, to her more recent explorations of eastern religions. Irigaray's ideas on love, the divine, the ethics of sexual difference and normative heterosexuality are analysed and

placed in the context of the reception of her work by secular feminists such as Judith Butler, Drucilla Cornell and Elizabeth Grosz, as well as by feminists in Religious Studies such as Pamela Sue Anderson, Ellen Armour, Amy Hollywood and Grace Jantzen. Finally, Irigaray's own spiritual path, which has been influenced by eastern religions, specifically the disciplines of yoga and tantra in Hinduism and Buddhism, is evaluated in the light of recent theoretical developments in orientalism and postcolonialism. *Hacking Classical Forms in Haitian Literature* Prentice Hall

Literary historians have long held the view that the plays of the Greek dramatist, Sophocles deal purely with archetypes of the heroic past and that any resemblance to contemporary events or individuals is purely coincidental. In this book, Michael Vickers challenges this view and argues that Sophocles makes regular and extensive allusion to Athenian politics in his plays, especially to Alcibiades, one of the most controversial Athenian politicians of his day. Vickers shows that Sophocles was no closeted intellectual but a man deeply involved in politics and he reminds us that Athenian politics was intensely personal. He argues cogently that classical writers employed hidden meanings and that consciously or sub-consciously, Sophocles was projecting onto his plays hints of contemporary events or incidents, mostly of a political nature, hoping that his audience's passion for politics would enhance the popularity of his plays. Vickers strengthens his case about Sophocles by discussing other authors - Thucydides, Plato and Euripides - in whom he also demonstrates a body of allusions to Alcibiades and others.

New York : Oxford University Press

Understanding Latin Literature is a highly accessible, user-friendly work that provides a fresh and illuminating introduction to the most important aspects of Latin prose and poetry. This second edition is heavily revised to reflect recent developments in scholarship, especially in the area of the later reception and reverberations of Latin literature. Chapters are dedicated to Latin writers such as Virgil and Livy and explore how literature related to Roman identity and society. Readers are stimulated and inspired to do their own further reading through engagement with a wide selection of translated extracts and through understanding the different ways in which they can be approached. Central throughout is the theme of the fundamental connections between Latin literature and issues of elite Roman culture. The versatile and accessible structure of Understanding Latin Literature makes it suitable for both individual and class use.

An historic publication in which the legendary German poet and dramatist emerges, quite like Goethe, as a poet driven by Eros. Bertolt Brecht is widely considered the greatest German playwright of the twentieth century, and to this day remains best known as a dramatist, the author of *Mother Courage*, *The Threepenny Opera*, and *The Caucasian Chalk Circle*, among so many other works. However, Brecht was also a hugely prolific and eclectic poet, producing more than 2,000 poems during his lifetime—indeed, so many that even his own wife, Helene Weigel, had no idea just how many he had written. "A thieving magpie of much of world literature," the full scope and variety of his poetic output did not become apparent until after his death. Now, the

English-speaking world can access part of his stunning body of work in *Love Poems*, the first volume in a monumental undertaking by award-winning translators David Constantine and Tom Kuhn to translate Brecht's poetic legacy into English. *Love Poems* collects his most intimate and romantic poems, many of which were banned in German in the 1950s for their explicit eroticism. Written between 1918 and 1955, these poems reflect an artist driven not only by the bitter and violent politics of his age but, like Goethe, by the untrammelled forces of love, romance, and erotic desire. In a 1966 *New Yorker* article, Hannah Arendt wrote of Brecht that he had "staked his life and his art as few poets have ever done." In these 78 poems, we see Brecht's astonishing and deeply personal love poems—including 22 never before published in English—many addressed to particular women, which show Brecht as lover and love poet, engaged in a bitter struggle to keep faith, hope, and love alive during desperate times. Featuring a personal foreword by Barbara Brecht-Schall, his last surviving child, *Love Poems* reveals Brecht as not merely one of the most famous playwrights of the twentieth century but also one of its most fiercely creative poets. [Guide to Sophocles' "Antigone"](#)

Designed primarily to be used alongside a standard school text of the "Antigone," this first extensive commentary since the Jebb 1891 edition represents a new concept in text commentary. The work is built around seven selected passages specifically chosen to illustrate the poet's diction, the play's ironic structure, and the antagonist's character. Grammatical notes, a comprehensive commentary on the literary, philosophical, and historical aspects of the play, and a vocabulary to all the Greek words that appear in the play are designed to acquaint the intermediate student of Greek with the peculiarities of tragic diction and vocabulary."
