Finally! Board member orientation truly simplified. Serving on a nonprofit board can be an incredibly rewarding experience for the properly prepared board member. This book is for the generous and busy people who agree to give of their time and talents by serving on nonprofit boards. Nonprofit boards often fail to do a good job of board member orientation for a variety of reasons. It takes a significant amount of time and effort to plan and

conduct quality board member orientation programs, and every time a new board member arrives, it's time to do it again! Because of the challenges associated with providing quality board member orientation, many nonprofit organizations do not do it at all, leaving their board members to wing it. This book provides help and support to the truly great men and women serving on nonprofit boards whose service makes a positive difference in the lives of countless people every day. This book is a concise and appropriately comprehensive guide to nonprofit board service designed especially for new board members. It is a quick read, (about one hour), yet it addresses with accuracy the most significant elements of board service, such as mission, responsibility, duty, risk, liability, and board meeting dynamics. Hoey Alerts! Watch for Hoey Alerts! where the author identifies and dispels common myths and legends about nonprofit board service. There are many sources of false or misleading information about the nonprofit board service environment. A perfect example is the often vaguely-worded and intimidating assertion or implication that the Sarbanes-Oxley Act passed by Congress in 2002 applies to nonprofit organizations in a manner similar to how it applies to publicly-traded companies. (It does not.) Reviews "This book is the perfect guide for every nonprofit board member! Concise, highly informative, and loaded with nuggets of wisdom, it's a must read that will take board members to the next level of successful board governance." -- J. Todd Chasteen, General Counsel, Samaritan's Purse "Mike Batts has put his quarter century of advising and serving on nonprofit boards to good use in this accurate and easy-to-read book. In addition to describing major principles of nonprofit law and governance, the book provides helpful questions to guide board members in understanding the practical applications of the concepts discussed. While geared primarily toward helping new board members get up to speed quickly, it should also help veteran board members discharge their stewardship roles wisely and efficiently." -- Chuck Hartman, Associate Professor of Business Law and Accounting, Cedarville University "This book, Board Member Orientation, is exactly what a busy volunteer board member needs. The board member's duties are presented in a clear and concise manner from the perspective of someone who has been around many boards. With a focus on those issues that are most common and/or most important, it is perfect for board member orientation and for quick reference reminders for the experienced board member." -- Doug Starcher, Partner, Broad & Cassel "This book provides clear, no-nonsense guidance on the basic issues for new nonprofit board members. Using this book for board member orientation will ensure your organization has communicated fundamental governance issues and will assist the board in determining risk management strategies." -- Dan Busby, President, ECFA ***** The Simple Board Member Orientation Process Using This Book: 1.Your board members read Chapters 1-9 of the book, which will provide them with insights regarding the key elements of nonprofit board service. 2.You provide the board members with copies of the documents described in Chapter 10 related to your organization. 3.You meet with your board members to discuss the unique attributes of your organization following the discussion questions provided in Chapter 10. I helped make your advisor's Sales Hype Do you need your advisor to succeed with investments? Do you think your advisor's strategy can beat a market index fund? Do you know how many sales your advisor must make to keep their job? What is your actual total return with all costs included? Why do many Wall Street firm owners use index funds? Most wealthy people can answer these questions. Can you? Today, the information to answer these questions is easily available but only savvy shoppers have used it to succeed. They realize that the retail financial industry is extremely profitable because the sales hype works even better than it used to work. We have learned how to manipulate behavior better. Our margins are 29%. The \$1.3 Trillion per year revenues come from YOU. I used to work for a few firms. I helped create some of the hype that our sales people used to separate you from your money or your potential future earnings. A plain market index fund beat 92-95% of the returns of our "professional" managers so we steer you away from them. However, we still get most investors to pay even for poor results. It is marketing, sales and misleading hype! Why should you give up your advisor? You may be giving up 63% of your total potential value. It is easy to do better on your own. Do you really think an expert at selling knows anything about what will happen to a security or the market in the next hour, week or year? Before I show you how to invest for your success, I think it is time you understood the marketing and sales HYPE. Most retail investors hate losing--more than they love winning. Most think Wall Street is a casino where some win but they forget that only the house wins long term. Isn't it time you learn how Warren Buffett avoids the Sales Hype and invests for success.

Everybody wants to think of a great idea that will make them rich. A good indication that you have a great idea is that someone copies it but, by then it can be too late. This is too bad as a lot of the knowhow to protect your ideas is free but buried in a mass of detail and exceptions which most people put in the "too hard" basket. Some IP protection you must pay for, such as trademarks but it is well worth it, provided it is done properly. Intellectual Property ("IP") has been described by the Financial Times as one of the key drivers of business competitiveness in the 21st century. Therefore, a clear understanding is essential not only for creative people or entrepreneurs but for anyone who wants to succeed in business and not have their ideas stolen.It does not even need to be your idea. Using IP law you can cheaply gain ownership of other people's ideas and then use your business skills to make a killing.By focusing on the IP legal advice that his small to medium sized business clients have been willing to pay for, Paul Brennan has written a book which will enable you to say "that's my IP" and at least sound as if you know what your talking about which can be the cheapest and most powerful of weapons available to you.Illustrated by legal cartoons drawn by the author this little book combines the qualities of a useful reference book on IP law with wry humour and the odd belly laugh.YOU WILL LEARN ABOUT: - Identifying your IP- Protecting your brand and content- Who owns what in joint projects- Fights over names- Internet disputes- How to avoid unintentionally giving it awayPaul is uniquely qualified to write this book. He has practiced law in Europe, North America, Asia and Australia. His experience of IP enforcement with a US multi-national, as a partner in law firms in London and Sydney, and ten years in Asia have combined to give him a broad experience. A post graduate in international copyright law, he now runs

his own general commercial and property law firm working with small to medium sized businesses.
