In its revised and updated fourth edition, this exhaustive encyclopedia provides a record of casualties of war from the last five centuries through 2015, with new statistical and analytical information. Figures include casualties from global terrorism, the wars in Iraq and Afghanistan, and the fight against the Islamic State. New entries cover an additional 20 armed conflicts between 1492 and 2007 not included in previous editions. Arranged roughly by century and subdivided by world region, chronological entries include the name and dates of the conflict, precursor events, strategies and details, the outcome and its aftermath.

Once Emperor of China, Master of the Imperial City, and then a member of the Red Chinese Congress! If you have seen the movie, *The Last Emperor*, the 1987 movie by Bernardo Bertolucci starring John Lone, you probably thought of course none of those things could really happen. But

they did happen. All of the main events in the movie occurred. Pujie, the younger brother of Pu Yi, was technical advisor to the movie, so you can be sure the events in the movie are accurate. Pujie had a daughter who is still alive in China. No prince, no rules in fiction, has lived a life of more excitement, despair, drama, and tragedy than Henry Pu Yi, the last emperor of China and later a member of Red China's National People's Congress. The grandnephew of the Dowager Tzu Hsi, Henry Pu Yi was born in Beijing in 1906, elevated to the Dragon Throne in 1908, expelled from the forbidden city in 1924, Emperor of Manchuria from 1934 to 1945, and subsequently a prisoner of the Soviets and Red Chinese for fourteen years when he received a more complete and protracted brainwashing than any other living man. Later, he formed the inglorious link between China's inglorious past and its enigmatic future for every calamity that has overwhelmed China and has overwhelmed Pu Yi and, he like China, survived. In our ignorance of the true character and purpose of the Chinese leaders today, this autobiography alone provides an unprecedented path of understanding China's past, present and future from a Chinese point of view. Although Henry Pu Yi lived precariously close to the abyss of intrigue, civil war, massacre, and revolution, he survived - only because by his own admission, he is "a liar, suspicious, tricky, and a hypocrite." Yet the many

faces of his fascinating live - his schooling by a collection of imperial tutors, his several unconsummated marriages; his complex dealings with warlords, foreign diplomats and military men are described with such vividness and candor that they could not stand alone an important, illuminating the vignettes of Chinese history. The utter fascination of this book is that it demonstrates the shocking extent to which the modern Chinese state has employed the techniques and ideas of Marx and Freud to take guile, hypocrisy, tradition, and dynastic heritage to recreate the modern man: Pu Yi.

In recent decades, the Spanish 'fantastic' has been at the forefront of genre filmmaking. Films such as *The Day of the Beast*, the *Rec* trilogy, *The Orphanage* and *Timecrimes* have received widespread attention and popularity, arguably rescuing Spanish cinema from its semi-invisibility during the creativity-crushing Franco years. By turns daring, evocative, outrageous, and intense, this new cinema has given voice to a generation, both beholden to and yet breaking away from their historical and cultural roots. Beginning in the 1990s, films from directors such as Alex de la Iglesia, Alejandro Amenabar, and Jaume Balagueró reinvigorated Spanish cinema in the horror, science fiction and fantasy veins as their work proliferated and took centre stage at international festivals such as Sitges, Fantasia International Film Festival and Fantastic Fest. Through an examination of key films and filmmakers, Shelagh Rowan-Legg here investigates the rise of this unique new wave of genre films from Spain, and how they have recycled, reshaped and renewed the stunning visual tropes, wild narratives and imaginative other worlds inherent to an increasingly influential cinematic field. Its emergence is part of a new trend of postnational cinema, led by the fantastic, which approaches the national boundaries of cinema with an exciting sense of fluidity.

This enormous volume is the first comprehensive encyclopedia of fantastic literature of the nineteenth century. From detective fiction to historical novels, from well-known authors like Jules Verne and H.G. Wells, to Russian newspaper serials and Chinese martial arts novels, *THE ENCYCLOPEDIA OF FANTASTIC VICTORIANA* is a truly exhaustive look at every aspect of fantastic literature in the days of Queen Victoria. Readers of science fiction and fantasy will be surprised to find here the roots of genres thought to be strictly contemporary, and students of literature will be amazed at the breadth and scope of writings produced in the Victoriana era. This is an invaluable reference, and truly one-of-a-kind.

Although fantasy and supernatural literature have long and celebrated histories, many critics contend that the fantastic and the supernatural have no place in the logical, rational, world of the detective story. This book is the first extensive study of the fantastic in detective fiction and it explores the highly debated question of whether detective fiction and the fantastic can comfortably coexist. The "locked room" mystery--which often uses the fantastic as a red herring to eventually be debunked by reason and logic--has long been among the most popular subgenres of detective fiction. This book also explores stories featuring almost supernaturally gifted detectives, stories where the supernatural is truly encountered, and stories with ambiguous endings. Close to 500 detective stories from 1841 to 2000, in which the fantastic or supernatural plays a central role, are discussed and analyzed. Although not all the stories are judged to be successful as detective tales, in the great majority, the fantastic enlivens the tale and deepens the mystery without weakening the detective elements.

The body in dreams, myths, legends, and anecdotes of the fantastic as expressions of human corporeality. In *The Body Fantastic*, Frank Gonzalez-Crussi looks at the human body through the lens of dreams, myths, legends, and anecdotes of the bizarre, exploring the close connection of the fictitious and the fabulous to our conception of the body. He chronicles, among other curious cases, the man who ate everything (including boiled hedgehogs and mice on toast), the therapeutic powers of saliva, hair that burst into flames, and an "amphibian man" who lived under water. Drawing on clinical records, popular lore, and art, history, and literature, Gonzalez-Crussi considers the body in both real and imaginary dimensions. Myths and stories, Gonzalez-Crussi reminds us, are the symbolic expression of our aspirations and emotions. These fantastic tales of bodies come from the deepest regions of the human psyche. Ancient Greeks, for example, believed that the uterus wandered around inside a woman's body--an "animal within an animal." If a woman sniffed an unpleasant odor, the uterus would retreat. Organized "digestive excess" began with the eating and drinking contests of antiquity and continue through the hot-dog eating competitions of today. And the "libido-podalic association," connecting male sexuality and the foot, insinuated itself into mainstream medicine in the sixteenth century; meanwhile, the feet of women in some cultures were scrupulously kept from view. Gonzalez-Crussi shows that the many imaginary representations of the body are very much a part of our corporeality.
