Research continues to show that the Christian religion is gradually disappearing from the public, cultural, and social spheres in Western Europe. Even on the individual level, institutionalized religion is becoming increasingly marginalized. New forms of religious life and community, however, may point toward a resurgence of Christian churches in postmodern Europe. This book focuses on the complex transformations Christian

churches in Western Europe have undergone since World War II. In English and French.

Francis Parkman: France and England in North America Vol. 2 (LOA #12) BoD - Books on Demand

Revolution in Print Univ of California Press

Voltaire et la société française au xviiiè siècle Universitaire Pers Leuven

This is the second of two Library of America volumes (the companion volume here) presenting, in compact form, all seven parts of Francis Parkman's monumental narrative history of the struggle for control of the American continent. Thirty years in the writing, Parkman's "history of the American forest" is an accomplishment hardly less awesome than the

explorations and adventures he so vividly describes. The story reaches its climax with the fatal confrontation of two great commanders at Quebec's Plains of Abraham—and a daring stratagem that would determine the future of a continent. Count Frontenac and New France under Louis XIV (1877) details how France might have won her imperial struggle with England. Frontenac, a courtier who was made governor of New France by that most sagacious of monarchs, oversaw the colony's brightest era of growth and influence. Had Canada's later governors possessed his administrative skill and personal force, his sense of diplomacy and political talent, or his grasp of the uses of power in a modern world, the English colonies to the south might have

become part of what Frontenac saw as a continental scheme of French dominion. England's American colonies flourished, while France, in both the Old World and the New, declined from its greatness of the late seventeenth century. Conflict over the developing western regions of North America erupted in a series of colonial wars. As narrated by Parkman in *A Half-Century of Conflict* (1892), these American campaigns, while only part of a larger, global struggle, prepared the colonies for the American Revolution. In *Montcalm and Wolfe* (1884) Parkman describes the fatal confrontation of the two great French and English commanders whose climactic battle marked the end of French power in America. As the English colonies cooperated for their own defense, they

began to realize their common interests, their relative strength, and their unique position. In this imperial war of European powers we also begin to see the American figures—Benjamin Franklin, George Washington—soon to occupy a historical stage of their own. LIBRARY OF AMERICA is an independent nonprofit cultural organization founded in 1979 to preserve our nation's literary heritage by publishing, and keeping permanently in print, America's best and most significant writing. The Library of America series includes more than 300 volumes to date, authoritative editions that average 1,000 pages in length, feature cloth covers, sewn bindings, and ribbon markers, and are printed on premium acid-free paper that will last for centuries.

That the poet John Gower was a major literary figure in England at the close of the fourteenth century is no longer in question. Scholarly attention paid to him and to his work over the past twenty-five years has redeemed him from an undeserved obscurity imposed by the preceding two hundred. The facts of his life and career are now documented, and recent critical assessment has placed his achievement most accurately alongside Chaucer's, Langland's, and the Gawain-poet's. Unique among his contemporaries, all of whom

undoubtedly read and used French in some measure, Gower alone has left us a significant body of verse and prose in Anglo-Norman; chiefly, the twelve-stanza poem *Mirour de l'Omme*, the *Cinkante Balades*, and the *Traitié pour les amantz marietz*. We are offered in this concordance of his Anglo-Norman work a unique opportunity to view a poetic language as it was written and read in England until Gower's death in 1408 and beyond.

Since it was first published, *French in Action: A Beginning Course in Language and Culture—The Capretz Method* has been widely recognized in the field as a model for video-based foreign-language instructional materials. The third edition, revised by Pierre Capretz and Barry Lydgate, includes new, contemporary illustrations throughout and, in the Documents section of each lesson, more-relevant information for today's students. A completely new feature is a journal by the popular character Marie-Laure, who observes and comments humorously on the political, cultural, and technological changes in the world between 1985 and today. The new edition also incorporates more content about the entire Francophone world. In

use by hundreds of colleges, universities, and high schools, French in Action remains a powerful educational resource that this third edition updates for a new generation of learners. Part 2 gives students at the intermediate level the tools they need to communicate effectively in French and to understand and appreciate French and Francophone cultures.

During the thirteen months covered by this volume, Thomas Jefferson spent more than half of his time in Philadelphia serving as vice president under President John Adams and presiding over a Senate that was dominated by his political opponents, the Federalists. Debates in Congress took place against a backdrop of bitter partisan rivalry, characterized most famously by the near-brawl on the floor of the House between Matthew Lyon and Roger Griswold. Congress and the nation waited, in a "state of extraordinary suspense," for dispatches from the American envoys in France. When the accounts of the XYZ Affair became public, the nation prepared for war. Two

days after the Alien Friends Act was signed into law Jefferson left for Monticello, stopping at Montpelier to convey the latest news to James Madison. Disheartened and frustrated by the Alien and Sedition Acts, Jefferson penned the famous resolutions adopted in November by the Kentucky legislature. He kept his authorship a secret, however, seeking to avoid any appearance of "rashness" by Republicans. This endeavor reflected his struggle to make sense of the political direction of the nation in times he could neither comprehend nor accept. Jefferson continued to engage in scientific pursuits and fulfill his role as a promoter of American science and learning. He was reelected to the presidency of the American Philosophical

Society, to which he presented his paper on the moldboard plow. He corresponded on American Indian languages, astronomy, and the Anglo-Saxon language. He longed for Monticello, and, as Jefferson had learned before, his property fell into neglect when he was away on public business. Renovations to the house slowed, supplies for the nailery were disrupted, and he had to arrange for the sale of his crops through intermediaries. With the prices of wheat low, he was drawn back into financial dependence on tobacco. *Settlement of claims on France; financial state of France; differences between Spain and Portugal; negotiations respecting the colonies of Spain in America; plot and attempt to assassinate the Duke of Wellington; evacuation of*
