Unlimited Power John Wiley & Sons

THE BESTSELLING AUTHOR OF PITCH ANYTHING IS BACK TO FLIP YOUR ENTIRE APPROACH TO PERSUASION. Is there anything worse than a high-pressure salesperson pushing you to say "yes" (then sign on the dotted line) before you're ready? If there's one lesson Oren Klaff has learned over decades of pitching, presenting, and closing long-shot, high-stakes deals, it's that people are sick of being marketed and sold to. Most of all, they hate being told what to think. The more you push them, the more they resist. What people love, however, is coming up with a great idea on their own, even if it's the idea you were guiding them to have all along. Often, the only way to get someone to sign is to make them feel like they're smarter than you. That's why Oren is throwing out the old playbook on persuasion. Instead, he'll show you a new approach that works on this simple insight: Everyone trusts their own ideas. If, rather than pushing your idea on your buyer, you can guide them to discover it on their own, they'll believe it, trust it, and get excited about it. Then they'll buy in and feel good about the chance to work with you. That might sound easier said than done, but Oren has taught thousands of people how to do it with a series of simple steps that anyone can follow in any situation. And as you'll see in this book, Oren has been in a lot of different situations. He'll show you how he got a billionaire to take him seriously, how he got a venture capital firm to cough up capital, and how he made a skeptical Swiss banker see him as an expert in banking. He'll even show you how to become so compelling that buyers are even more attracted to you than to your product. These days, it's not enough to make a great pitch. To get attention, create trust, and close the deal, you need to flip the script.

Singer, author of The Untethered Soul, tells the extraordinary story of what happened when, after a deep spiritual awakening, he decided to let go of his personal preferences and simply let life call the shots. As Singer takes you on this great experiment and journey into life's perfection, the events that transpire will both challenge your deepest assumptions about life and inspire you to look at your own life in a radically different way. Spirituality is meant to bring about harmony and peace. But the diversity of our philosophies, beliefs, concepts, and views about the soul often leads to confusion. To reconcile the noise that clouds spirituality, Michael Singer combines accounts of his own life journey to enlightenment - from his years as a hippie-loner to his success as a computer program engineer to his work in spiritual and humanitarian efforts - with lessons on how to put aside conflicting beliefs, let go of worries, and transform misdirected desires. Singer provides a road map to a new way of living not in the moment, but to exist in a state of perpetual happiness.
