"This delightful book" for young readers "is full of creative activities, interspersed with plenty of fascinating historical facts" (School Library Journal). On this here ship, we follow the pirate's code: No frolikin' in the bilges, no songs about scurvy, and most important, each buccaneer must keep his pistol ready for action at all times. Break the code, me bucko, and you'll be forced to walk the plank. In *The Big Book of Pirate Stuff*, Captain Michael MacLeod and Jamaica Rose teach the fine art of pirateering, from plundering, pillaging, and gambling to digging for buried treasure. A dabble of history, a smatterin' of activities, and a healthy dose of derring-do make this book a must-read for aspiring pirates.

Announcing the biggest, best, most innovative book ever on paper craft. Even better, this is not about how to use costly, artsy paper, but how to turn stuff around the house—magazines and shopping bags, candy wrappers and paint sample cards, wrapping paper, old maps, and paper towel tubes—into stunning jewelry, gifts, home decor, party favors, and much more. Chances are you've seen the author's cutting-edge work in the windows of Anthropologie, where she is the chain's merchandising manager. An inveterate crafter who creates projects and styles photo shoots for

magazines like *Parents* and *Vogue Knitting*, Kayte Terry takes the most versatile of materials and the most basic of crafts (remember snipping valentines out of construction paper?), and creates something completely transformative. Turn a sheaf of any white or graph paper into an amazing Scrap Happy Globe Lantern for the dining room. Fashion colored tissue paper into Songbird Votives, leftover raffle tickets into a Prizewinning Bowl, that out-dated pile of holiday catalogs into a picture frame. There's a necklace made of playing cards, a gum wrapper bracelet, and barrettes made by quilling—a paper technique that goes back to the Renaissance. Every project is photographed in full color, and includes step-by-step illustrations and instructions. Truly a book that shows how to think outside the (cardboard) box.
