The Journal of Roman
Pottery Studies continues
to present a cross-section
of recent research not just

from the UK but also
Europe. Volume 16 carries
papers on a variety of
subjects from Britain and
the Continent, ranging
from papers dealing with
production sites to those
looking at the distribution
of types. There are case
studies on kiln vessels
from Essex, pottery
production in Roman
Cologne, excavations at

Toulouse, as well as an
examination of transport
routes of samian ware to
Britain. Also included are
an editorial, obituaries
and book reviews.

La pathologie du pouvoir: vices, crimes et délits des gouvernants Routledge
La singularité de la criminalité des gouvernants ou de leurs actes peccamineux réside dans la rareté des condamnations qu'ils ont subies. En examinant sur la longue durée, les formes de dénonciation de ces délits des hommes de pouvoir, le livre essaie de comprendre les raisons qui aboutissent à la

rupture du consensus et à la remise en cause de l'acceptation sociale des traditions jusqu'alors tolérées (corruption, extorsion, abus en tout genre). Les différentes contributions examinent les conditions de ces condamnations, morales et politiques, et dessinent un tableau nuancé de ces pathologies du pouvoir qui loin d'être invariables dans le temps sont articulées aux paradigmes moraux de chaque société historique. Les contributeurs sont: Nathalie Barrandon, Anne-

Catherine Baudoin, Franck Collard, Kathleen Crowther, Angela De Benedictis, Silvia Di Paolo, Julien Dubouloz, Patrick Gilli, Cedric Giraud, Thomas Granier, Laurent Guitton, Charles Guerin, Corinne Manchio, Nancy McLoughin, Hélène Ménard, Richard Newhauser, Flocel Sabaté, Armand Strubel, Julien Théry et Silvana Vecchio
English: What is singular about the criminality of rulers or their sinful acts is how rarely they are convicted. Through a long-term study of the

forms of denunciation of crimes committed by those who hold power, this book tries to understand the reasons that lead to breaking the consensus and calling into question the social acceptance of traditions which had hitherto been tolerated (corruption, extortion, different types of abuse). The various contributions investigate the moral and political conditions of these convictions, and give a well-balanced account of these pathologies of power: far from being

invariable over time, they are consistent with the moral paradigms of each society in history. *Les 'uvres Choisies de George Sand. The Selected Works of George Sand* Routledge
 These reports are the result of a collection of statistics of marriage and divorce for the years 1922- They represent the fourth- investigation on the subject made by the federal government. The first investigation, made by the former Department of Labor, covered the 20-year period 1867-1886;

the second investigation made by the Bureau of the Census, covered the 20-year period 1887-1906; and the third investigation, also made by the Bureau of the Census, covered the calendar year 1916 cf. 1922, Letter of transmittal, p. ii. *Electrical World Directory of Electric Utilities La Boîte à Pandore*
 This book brings together 15 papers on objects from the excavations of the town of Gabii undertaken since 2007. Objects ranging from the pre-

Roman to Imperial periods are examined using a mix of approaches, making an effort to be sensitive to excavation context and formation processes.

Suivez l'auteur tout le long de son année sabbatique, de sa prise de décision à son retour au pays. « Et si je prenais une année sabbatique ? » Qui ne s'est jamais posé cette question ? Par défiance, par envie, par rêve ou pour échapper à une certaine routine, elle

vous a sûrement déjà traversé l'esprit. Pour ma part, j'ai dû me la poser au moins des centaines de fois... Jusqu'au jour où je suis passé à l'action ! Décision immature synonyme d'un mal-être ? Pas du tout. C'était au contraire mûrement réfléchi, pour donner un réel sens à ma vie. J'avais pourtant tout pour « réussir » et « gravir les échelons dans une grande boîte », le soi-disant but ultime à atteindre dans notre société. Mais je savais au fond de moi que mon bien-être personnel

s'atteindrait autrement... Luttant contre tous les clichés et les peurs qui ont pu se mettre en travers de ma route jusqu'au grand départ, j'ai choisi de relater l'intégralité de mon parcours. Les longs mois de préparation avant de me lancer, puis le récit des expériences de voyage qui ont bouleversé ma vie à tout jamais. Sans oublier une phase que l'on omet bien souvent : le retour au pays et la reprise d'un tout autre quotidien après avoir sillonné le monde pendant

un an. En plus d'être une invitation à explorer la planète, ce témoignage nous amène à nous interroger sur notre existence moderne. Alors, osez-vous également partir en année sabbatique ? Explorez le monde et interrogez-vous sur notre vie moderne et les clichés de notre société, grâce à ce témoignage des plus inspirants qui vous aidera à remettre votre bien-être au centre de vos préoccupations. EXTRAIT L'achat des billets d'avion nous a révélé cette

bizarrerie qu'il semblait obligatoire de prendre un vol aller-retour pour des voyages longue durée. Cette information provenait tout droit d'Internet, mais le problème en surfant sur son ordinateur, c'est que l'on trouve tout et son contraire. En effet, certains voyageurs n'évoquaient aucun souci, mais d'autres expliquaient sur des forums comment ils s'étaient retrouvés bloqués aux douanes, impossibilité d'embarquer. Pas de billet retour signifie passager

clandestin et voilà comment on pouvait rester au point de départ, retenu à l'aéroport de Nice : l'horreur, pour rien au monde ! Alors on a commencé à avoir peur - pour la première et la dernière fois de l'année - et la peur fait commettre des actions stupides... Nous avons donc pensé au retour, avant même le départ. Que le système me semblait absurde, on désirait simplement de l'évasion au plus vite, mais il fallait s'embêter avec toute une ribambelle d'étapes de planification.

On voulait avancer, sans se préoccuper du reste et puis, en farfouillant, une autre bizarrerie des compagnies aériennes est apparue : c'était moins cher avec le vol retour. Nous n'avions plus aucune raison de ne pas l'acheter, ce foutu billet retour ! CE QU'EN PENSE LA CRITIQUE Florent Catanzaro, dans un style fluide et qui sent le vécu, nous emmène dans un mélange de récit de voyage et de réflexions plus existentielles sur le développement personnel [...] C'est vraiment un

livre que je recommande, où Florent Catanzaro narre cette aventure humaine avec humour et avec des anecdotes savoureuses. Sans oublier, et c'est peut-être là l'essentiel, le cheminement personnel que cette année de voyage a permis à l'auteur de réaliser et dont il nous livre l'analyse. - Régis Marée, blog Les Zebres voyageurs Ce livre est une véritable ode à la liberté et au voyage. - catanz13, Babelio À PROPOS DE L'AUTEUR

Florent Catanzaro, jeune trentenaire et ingénieur de formation, se définit plutôt comme un utopiste optimiste et un aventurier dans l'âme. Il constate que son année sabbatique enrichit encore quotidiennement sa vie. *Arts & Humanities Citation Index* Archaeopress Publishing Ltd
The broad valley of the Bradano river and its tributary, the Basentello, separates the Apennine mountains in Lucania from the limestone plateau of the Murge in Apulia in southeast Italy.

This book aims to explain how the pattern of settlement and land use changed in the valley over the whole period from the Neolithic to the late medieval.

Claire Laubier brings together documentary and statistical material; extracts from newspapers and journals, literary texts, advertisements, manifestos, and personal testimonies. Each extract relates to the different experiences of women in

France at work, in politics, at home and in the family. Together they offer a direct and thought-provoking chronological and thematic account of women's lives in post-war France.

Staat und Staatlichkeit in Der Frühen Römischen Republik BRILL

The Adriatic is 'the small Mediterranean' – a sea within a sea, part of the Mediterranean and at the same time detached from it, a largely enclosed sea with stunning coastlines and a long history of commercial, political and

cultural exchange. Silent witness to the flow of civilizations, the Adriatic is the meeting point of East and West where many empires had their frontiers and some overlapped. With Italy on one side and the Balkans on the other, the Adriatic is the area where the Latin West became intertwined with the Greek and Ottoman East. This book tells the history of the Adriatic from the first cultures of the Neolithic Age through to the present day. All of the great civilizations and

cultures that bordered and crossed the Adriatic are discussed: Ancient Greece and Rome, Byzantium and the Holy Roman Empire, Venice and the Ottomans, Catholicism, Orthodox Christianity and Islam. Byzantium was replaced by Venice, queen of the Adriatic, which reached its zenith at the beginning of the sixteenth century and maintained commercial and military hegemony in its Gulf, sharing the sea with the Turks, the Habsburgs, the Pope and the Spanish vice-kingdom

of Naples. It was Napoleon who ended Venice's reign in 1797. In the nineteenth century, the Austrian Empire prevailed, and Central Europe reached the Mediterranean through the Adriatic. United Italy placed its most symbolic frontier in the eastern Adriatic, clashing with Austria-Hungary in the First World War. The twentieth century was marked by the prolonged conflicts and eventually peace between Yugoslavia, Albania and Italy. Today the Adriatic is a region

increasingly integrated into the European Union, experiencing a new era of cooperation following the dramatic collapse of Yugoslavia. Across centuries, this book illustrates the rich cultural and artistic heritage of diverse civilizations as they left their mark on the cities, shores and states of the Adriatic.

In the past two decades, conflict archaeology has become firmly established as a promising field of

research, as reflected in publications, symposia, conference sessions and fieldwork projects. It has its origins in the study of battlefields and other conflict-related phenomena in the modern Era, but numerous studies show that this theme, and at least some of its methods, techniques and theories, are also relevant for older historical and even prehistoric periods. This book presents a series of case-studies on conflict archaeology in ancient Europe, based on the results of both recent

fieldwork and a reassessment of older excavations. The chronological framework spans from the Neolithic to Late Antiquity, and the geographical scope from Iberia to Scandinavia. Along key battlefields such as the Tollense Valley, Baecula, Alesia, Kalkriese and Harzhorn, the volume also incorporates many other sources of evidence that can be directly related to past conflict scenarios, including defensive works, military camps, battle-related ritual deposits,

and symbolic representations of violence in iconography and grave goods. The aim is to explore the material evidence for the study of warfare, and to provide new theoretical and methodological insights into the archaeology of mass violence in ancient Europe and beyond. Cone-bearing Trees of the Pacific Coast Rowman & Littlefield
This volume focuses on the representation of the recent past in classical Athenian oratory and investigates the ability of

the orators to interpret it according to their interests; the inability of the Athenians to make an objective assessment of it; and the unwillingness of the citizens to hear the truth, make self-criticism and take responsibility for bad results. Twenty-eight scholars have written chapters to this end, dealing with a wide range of themes, in terms both of contents and of chronology, from the fifth to the fourth century B.C. Each contributor has written a chapter that analyzes one or more

historical events mentioned or alluded in the corpus of the Attic orators and covers the three species of Attic oratory. Chapters that treat other issues collectively are also included. The common feature of each contribution is an outline of the recent events that took place and influenced the citizens and/or the city of Athens and its juxtaposition with their rhetorical treatment by the orators either by comparing the rhetorical texts with the historical

sources and/or by examining the rhetorical means through which the speakers model the recent past. This book aims at advanced students and professional scholars. This volume focuses on the representation of the recent past in classical Athenian oratory and investigates: the ability of the orators to interpret it according to their interests; the inability of the Athenians to make an objective assessment of persons and events of the recent past and their

unwillingness to hear the truth, make self-criticism and take responsibility for bad results.

Turn-of-the-century Cabaret Oxbow Books Futurism began as an artistic and social movement in early twentieth-century Italy. Until now, much of the scholarship available in English has focused only on a single individual or art form. This volume seeks to present a more complete picture of the movement by exploring the history of the

movement, the events leading up to the movement, and the lasting impact it has had as well as the individuals involved in it. *The History of Futurism: The Precursors, Protagonists, and Legacies* addresses the history and legacy of what is generally seen as the founding avant-garde movement of the twentieth century. Geert Buelens, Harald Hendrix, and Monica Jansen have brought together scholarship from an international team of specialists to explore the

Futurism movement as a multidisciplinary movement mixing aesthetics, politics, and science with a particular focus on the literature of the movement.

Living the Death of Democracy in Spain
Archaeopress Publishing Ltd

This volume brings together new interdisciplinary perspectives on the Spanish Civil War, its victims, its contentious ending, and its aftermath. In exploring the slow demise of the Spanish

Republic and the course of the Civil War, the authors have chosen to range in turn over cinematic, literary and historical depictions of the era. In addition, reactions elsewhere in Europe to the Spanish conflict are examined; the role of the International Brigades is looked at afresh; the fate of children displaced during the Civil War is explored; and the Spanish anarcho-syndicalist movement is revisited. The volume shows that to be any kind of soldier in the armies of the

Republic, or even to be seen as a Republican sympathiser, was to become a "non-person" in the new order in Spain under Franco, and sets what supporters of the Republic had to endure within the wider European and international context of the period. This book offers timely fresh insights into the failure of the Spanish Republic and into a society that tried in vain to unite its divided people during what was a seismic era in Spain's history. This book was originally published as a special

issue of Bulletin of Spanish Studies.

An intriguing and vibrant study of an innovative and lesser-known facet of contemporary art. Identifies significant strategies exploited by European artists to extend their aesthetic vision within the mediums of prints, books and multiples. Drawn from the acclaimed New Princeton Encyclopedia of Poetry and Poetics, the articles in this concise new reference book provide a complete survey of the poetic history and practice in every major national literature or cultural tradition in the world. As with the parent volume, which has sold

over 10,000 copies since it was first published in 1993, the intended audience is general readers, journalists, students, teachers, and researchers. The editor's principle of selection was balance, and his goal was to embrace in a structured and reasoned way the diversity of poetry as it is known across the globe today. In compiling material on 106 cultures in 92 national

literatures, the book gives full coverage to Indo-European poetries (all the major Celtic, Slavic, Germanic, and Romance languages, as well as other obscure ones such as Hittite), the ancient middle Eastern poetries (Hebrew, Persian, Sumerian, and Assyro-Babylonian), subcontinental Indian poetries (the widest linguistic diversity), Asian and Pacific poetries

(Chinese, Japanese, Korean, Vietnamese, Mongolian, and half a dozen others), continental American poetries (all the modern Western cultures and native Indian in North, Central, and South American regions), and African poetries (ancient and emergent, oral and written).
