Immigration reform and border security are highly charged topics in America today. *Immigration, Assimilation, and Border Security* examines the history of immigration along with the immigration debate of today. This book shows how attitudes about immigration have shifted and the author examines recent developments in immigration policy and border security. This second edition is an update of the intersection of border security, immigration, and assimilation in the U.S.A. In addition to the history of immigration and custom services and shifts in attitudes about immigration, this edition provides new information about the operations of the Department of Homeland Security to secure the border. A new chapter examines developments in immigration policy relating to the border wall, family separation, unaccompanied immigrant minors and Deferred Action for Childhood Arrivals or DACA. The book includes real-life stories of difficult incidents that arise due to the complicated relationship between immigration and border security. The authors review prospects for comprehensive immigration policy and border security policy.

The fifth and final volume of the *Canadian State Trials* series examines political trials and national security measures during the period of 1939 to 1990. Essays by historians and legal scholars shed light on experiences during the Second World War and its immediate aftermath, including uses of the War Measures Act and the Official Secrets Act with the unfolding of the Cold War and legal responses to the FLQ (including the October Crisis), labour strikes, and Indigenous resistance and standoffs. The volume critically examines the historical and social context of the trials and measures resulting from these events, concluding the first comprehensive series on this important area of Canadian law and politics. The fifth volume's exploration of state responses to real and perceived security threats is particularly timely as Canada faces new challenges to the established order ranging from Indigenous nations demanding a new constitutional framework to protestors challenging discriminatory policing and contesting public health measures. This book explores "self-searching migrants," a new group of indefinitely globally mobile people whose purpose of overseas stay is the search of true self and the work they really want to do, using Japanese trans-Pacific sojourners as the case study. Utilizing testimonies collected from interviews with Japanese migrants in their twenties to forties who had entered the job market between the early 1990s and 2010 and left for the English-speaking countries of Canada, Australia, and Singapore, the book argues that their practices are both ubiquitous and unique, the products of global and local contexts of a specific time. As semiskilled migrants from an extra-Western, postindustrial country, their struggles show a different picture of the West-centric world power system from those experienced by migrant workers from the Global South. Including extensive qualitative research and interview material collected over a 20-year period, this book will be of huge interest to students and scholars of Japanese culture and society, cultural anthropology, and migration.

With little existing scholarship on LGBT diaspora from Asia, this groundbreaking book examines the intersectionality of migration, sexuality, and gender, as well as race and ethnicity, through an analysis of the transnational experiences of Japanese LGBT diasporas in the USA, Canada and Australia. Employing a variety of methods, including a questionnaire, ethnographic analysis and case studies, the author demonstrates and analyses LGBT experiences where the notion of "gay-friendly" Japan prevails, looking at their reasons to flee the country and their diverse experiences in their host country. These include their needs and want for social services for Japanese LGBT diaspora. Findings are comparatively examined with LGBT refugees' experiences, among LGBT subgroups, as well as across the three countries, highlighting the significance of gender, race and ethnicity, as well as immigration policy, in the experiences of LGBT diasporas from Japan. This book will appeal to students and scholars interested in Migration, Race and Ethnicity, Gender and Sexuality, and Asian Studies. Masami Tamagawa is Senior Teaching Professor of Japanese Studies, Gender Studies, and Asian Studies at Skidmore College, USA.

Using expibasketical theory and findings, this book attempts to understand and explain some of the wonders of love and the impacts these have on the other human institutions (such as marriage and family) that are supposed to be erected on love and understanding. Love is a phenomenon that is hard to correctly master, most probably because it is loaded with a lot of uncertainties. This simple fact must be the reason behind the commonplace saying that love is blind; a statement that can have several interpretations, one of which being that it is hard to read or know exactly what is on the other party's mind. Love thus becomes not only an intriguing feeling but also potentially full of intrigues. Can love be so blind to realities and still be love? The book answers many of such queries by expanding and delineating the frontiers of love, and thence marriage and family.
