Histology Practical Manual Pustak Mahal

Covering both common and uncommon

conditions this book highlights an authentic evidence-based approach for the management of skin disorders. It presents the disorders in an alphabetical order and discusses their clinical features followed by a quick exposition of the relevant aetiology and pathogenesis. It then explains clinical diagnosis with the help of photographs vividly illustrating the features of the disorder. Management of the disorder has then been lucidly explained by organising the therapeutic data into a three-layered evidence-based approach. A large number of flowcharts summarising this approach have been included to serve as quick reference points for the busy clinician.

Volume 2 : Essentials of Systemic Pharmacology : From Principles to

Practice Createspace Independent Publishing Platform

1. Chapterwise and Topicwise medical Entrance is a master collection of questions
2. The book contains last 17 years of question from various medical entrances
3. Chapterwise division and Topical Categorization is done according NCERT NEET Syllabus
4. Previous Years Solved Papers (2021-2005) are given in a Chapterwise manner. With ever changing pattern of examinations, it has become a paramount importance for students to be aware of the recent pattern and changes that are being made by the examination Board/Body. For an exam like NEET, it's even more important for an aspirant to stay updated with every little detail announced by the Board. The current

edition of "NEET+ Chemistry Chapterwise - Topicwise Solved Papers [2021 - 2005]" serves as an effective question bank providing abundance of previous year's questions asked in last 17 years along with excellent answer quality. REVIEW OF PREVENTIVE & SOCIAL MEDICINE 16 Years' JIPMER Solved Papers

Textbook of Medical Physiology 4th Edition - E-Book

Official Report Wolters kluwer india Pvt Ltd

This book explains the pharmacological relationships between the various systems in the human body. It offers a comprehensive overview of the pharmacology concerning the autonomic, central, and peripheral nervous systems. Presenting up-to-date information on chemical mediators and their significance, it highlights the therapeutic aspects of several diseases

affecting the cardiovascular, renal, respiratory, gastrointestinal, endocrinal, and hematopoietic systems. The book also includes drug therapy for microbial and neoplastic diseases. It also comprises sections on immunopharmacology, dermatological, and ocular pharmacology providing valuable insights into these emerging and recent topics. Covering the diverse groups of drugs acting on different systems, the book reviews their actions, clinical uses, adverse effects, interactions, and subcellular

mechanisms of action. It is divided into 11 parts, subdivided into several chapters that evaluate the basic pharmacological principles that govern the different types of body systems. This book is intended for academicians, researchers, and clinicians in industry and academic institutions in pharmaceutical, pharmacological sciences, pharmacy, medical sciences, physiology, neurosciences, biochemistry, molecular biology and other allied health sciences.
