Through surveys and dialogues, it asked people about their hopes and fears for the future – representing the UN's most ambitious effort to date to understand expectations of international cooperation and of the

UN in particular. It is also the largest survey to date on priorities for recovering from the COVID-19 (coronavirus, COVID) pandemic. By September 2020, over a million people from all countries and all walks of life had taken part. Their answers provide unique insights into what the public wants at this challenging time. The key findings are contained in this publication.

From world-renowned scientist Jane Goodall, as seen in the new National Geographic documentary Jane, comes a provocative look into the ways we can positively impact the world by changing our eating habits. "One of those rare, truly great books that can change the world." - John Robbins, author of The Food Revolution
The renowned scientist who fundamentally changed the way we view primates and our relationship with the animal kingdom now

turns her attention to an incredibly important and deeply personal issue-taking a stand for a more sustainable world. In this provocative and encouraging book, Jane Goodall sounds a clarion call to Western society, urging us to take a hard look at the food we produce and consume-and showing us how easy it is to create positive change. Offering her hopeful, but stirring vision, Goodall argues convincingly that each individual can make a difference. She offers simple strategies each of us can employ to foster a sustainable society. Brilliant, empowering, and irrepressibly optimistic, HARVEST FOR HOPE is one of the most crucial works of our age. If we follow Goodall's sound advice, we just might save ourselves before it's too late.

BUSINESS BOOK AWARDS 2021 SHORTLISTED TITLE

Everyone says a great leader needs EQ, Emotional Intelligence, soft skills, blah, blah, blah. What does that even mean? Where do you start? Where's the line for that on the P&L? You might think that business is all about facts and figures. You probably prefer it that way. The truth is that as uncertainty and business complexity increases, successful leaders need to embrace soft skills to get the best out of their people in a sustainable manner. In this succinct, no-nonsense approach, Anne Taylor shares: Key soft skills relevant for leadership and practical applications of how

to use them every day drawn from real-life case studies
 Straightforward tools to better understand yourself, because your leadership starts with YOU Simple frameworks to communicate with others to get things done while building a stronger relationship with them (at the same time, how efficient!) Logical ideas you can try immediately with on-line support if you want it. All done in an easy to read, logical, organized manner for people who prefer facts and don't consider themselves natural 'people people.' In a direct yet professional manner, Anne combines the results-oriented focus from her extensive business background in Fortune 100 corporations with her passion for personal awareness and conscious choice to help you get better results through your people, fast. The Practical Principles in this book, when applied, practiced and honed, can improve your effectiveness, impact and bottom-line results.

What does pleasure have to do with morality? What role, if any, should intuition have in the formation of moral theory? If something is 'simulated', can it be immoral? This accessible and wide-ranging textbook explores these questions and many more. Key ideas in the fields of normative ethics, metaethics and applied ethics are explained rigorously and systematically, with a vivid writing style that enlivens the topics with energy and wit. Individual theories are discussed in detail in the first part of the book, before these positions are applied to a wide range of contemporary situations including business ethics, sexual ethics, and the acceptability of eating animals. A wealth of real-life examples, set out with depth and care, illuminate the complexities of different ethical approaches while conveying their

modern-day relevance. This concise and highly engaging resource is tailored to the Ethics components of AQA Philosophy and OCR Religious Studies, with a clear and practical layout that includes end-of-chapter summaries, key terms, and common mistakes to avoid. It should also be of practical use for those teaching Philosophy as part of the International Baccalaureate. Ethics for A-Level is of particular value to students and teachers, but Fisher and Dimmock's precise and scholarly approach will appeal to anyone seeking a rigorous and lively introduction to the challenging subject of ethics. Tailored to the Ethics components of AQA Philosophy and OCR Religious Studies.
