Down in the Jungle, 1, 2, 3 North Atlantic Books
The Cat in the Hat takes Sally and Dick for an “umbrella-vator” ride through the understory, canopy, and

emergent layers of a tropical rain forest, encountering a host of plants, animals, and native peoples along the way. **People of the Rainforest** Bellwether Media
This STEM-based text

booklet introduces elementary school students to tropical rainforests and the incredible diversity of life that inhabits them. Known as the Mission Reader, this booklet covers grade-specific educational

standards (NGSS Grade 3) and provides core information to students actively engaged in the corresponding 'Science 3D' mission.

3-D Explorer: Bugs Oxford University Press
Take your child on a spectacular 3D tour of the world's rainforests! Incredible pop-up scenes will introduce your child to life within rainforests. Help them explore flooded rivers and the dark

forest floor, climb up through the shadowy understorey and lively canopy, then reach the tops of the tallest trees. They'll meet birds, monkeys, bats and insects and discover all about the circle of life beneath the trees. Packed with stunning photographs and intriguing facts, this is a spectacular pop-up tour of the rainforests of the world. *Life in the Treetops* Simon & Schuster Books for Young

Readers
The story of two generations of scientific explorers in South America—Richard Evans Schultes and his protégé Wade Davis—an epic tale of adventure and a compelling work of natural history. In 1941, Professor Richard Evan Schultes took a leave from Harvard and disappeared into the Amazon, where he spent the next twelve years mapping

uncharted rivers and living among dozens of Indian tribes. In the 1970s, he sent two prize students, Tim Plowman and Wade Davis, to follow in his footsteps and unveil the botanical secrets of coca, the notorious source of cocaine, a sacred plant known to the Inca as the Divine Leaf of Immortality. A stunning account of adventure and discovery, betrayal and destruction, *One River* is a

story of two generations of explorers drawn together by the transcendent knowledge of Indian peoples, the visionary realms of the shaman, and the extraordinary plants that sustain all life in a forest that once stood immense and inviolable.

Into the Rainforest
HarperCollins
Lush, moist, and teeming with life, rain forests are one of Earth's biome wonders. Peel back the

corners of the rain forest to discover what lives within one of the planet's busiest environments, from wolves and porcupines to monkeys and poison dart frogs. Learn how each organism functions within its rainforest ecosystem and how it survives in one of the most predatory biomes on Earth. Find out, too, how rain forests are found all around the world and

what you can do to help protect these precious resources. Teacher's guide available.

Rain Forests

DK Children Presents the five layers in the rain forest and the animals and other features of each one, and discusses the risks to rain forests, the life cycle of a rain forest, and food chains.

3D Theater: Rainforest
Marshall Cavendish
A magical series that opens up a world of

wonder, with fabulous three-dimensional paper engineering taking you into the heart of each subject. *3D Wild Rainforest* uses stunning 3D scenes to take the reader into the very heart of the jungle. Whether it's looking down from the canopy through the different layers to the forest floor, exploring a Mayan temple half-covered by foliage, meeting the many animals

that the rainforest is home to or coming across a river complete with caimans and piranhas, this enticing book will enthral children and parents alike. Backed up with fascinating reference spreads, this is a book to treasure.
