Soulé's New Science and Practice of Accounts John Wiley & Sons

While there is growing interest in IFRS within the US, interest outside the US has exploded. Weygandt's fourth edition of *Financial Accounting: IFRS* highlights the integration of more US GAAP rules, a desired feature as more foreign companies find the United States to be their largest market. The highly anticipated new edition retains each of the key features (e.g. TOC, writing style, pedagogy, robust EOC) on which users of Weygandt *Financial Accounting* have come to rely, while putting the focus on international companies/examples, discussing financial accounting principles and procedures within the context of IFRS, and providing EOC exercises and problems that present students with foreign currency examples instead of solely U.S. dollars.
