Below Zero Houghton Mifflin Harcourt

The Poetry Book Society Recommended Translation for Summer 2018 The Austrian poet and novelist Evelyn Schlag, whose 2004 Selected Poems received the coveted Schlegel Tieck Prize, returns with All under One Roof. Once more, Karen Leeder's brilliant translations render a selection of Schlag's most recent poems into English. The book draws on two substantial German-language collections, *Sprache von einem anderen Holz* (2008) and *verlangsamte raserei* (2014). There is also a new essay by the author in which she discusses the sources, politics and strategies of her writing. Love remains a central theme for Schlag, but an associative inward journey with new diction, and new orthography, is underway. Rüdiger Görner in *Die Presse* responded to the vibrancy of what he called the 'Sprachpulsate' (pulses of language): 'Evelyn Schlag's poems have a kind of discreet presence; once spoken they have claimed their permanent place in the lyric cosmos.' Leeder's selection traces a uniquely Austrian imagination at the heart of contemporary European poetry.

Alice in Wonderland (also known as Alice's Adventures in Wonderland), from 1865, is the peculiar and imaginative tale of a girl who falls down a rabbit-hole into a bizarre world of eccentric and unusual creatures. Lewis Carroll's prominent example of the genre of "literary nonsense" has endured

in popularity with its clever way of playing with logic and a narrative structure that has influence generations of fiction writing.

Alice in Wonderland Rowman & Littlefield

A Washington Post best nonfiction book pick of 2021 "It is biography as an expression of love." – The New York Times New York Times–bestselling author Julie Klam's funny and moving story of the Morris sisters, distant relations with mysterious pasts. Ever since she was young, Julie Klam has been fascinated by the Morris sisters, cousins of her grandmother. According to family lore, early in the twentieth century the sisters' parents decided to move the family from Eastern Europe to Los Angeles so their father could become a movie director. On the way, their pregnant mother went into labor in St. Louis, where the baby was born and where their mother died. The father left the children in an orphanage and promised to send for them when he settled in California—a promise he never kept. One of the Morris sisters later became a successful Wall Street trader and advised Franklin Roosevelt. The sisters lived together in New York City, none of them married or had children, and one even had an affair with J. P. Morgan. The stories of these independent women intrigued Klam, but as she delved into them to learn more, she realized that the tales were almost completely untrue. The Almost Legendary Morris Sisters is the revealing account of what Klam discovered about her family—and herself—as she dug into the past. The deeper she went into the lives of the Morris sisters, the slipperier their stories became. And the more questions she had about what actually happened to them, the more her opinion of them evolved. Part memoir and part confessional, and told with the wit and honesty that are hallmarks of Klam's books, The Almost Legendary Morris Sisters is the fascinating and funny true story of one writer's journey into her family's past, the truths she brings to light, and what she learns about herself along the way.

The beloved New York Times bestseller from acclaimed author Eleanor Brown about three sisters who love each other, but just don't happen to like each other very much. Three sisters have returned to their childhood home, reuniting the eccentric Andreas family. Here, books are a passion (there is no problem a library card can't solve) and TV is something other people watch. Their father—a professor of Shakespeare who speaks almost exclusively in verse—named them after the Bard's heroines. It's a lot to live up to. The sisters each have a hard time communicating with their parents and their lovers, but especially with one another. What can the shy homebody eldest sister, the fast-living middle child, and the bohemian youngest sibling have in common? Only that none has found life to be what was expected; and now, faced with their parents' frailty and their own personal disappointments, not even a book can solve what ails them...

A Vietnamese family flees its war-torn home and resettles in California, in a novel that offers a “brilliant exploration of exile, loss, and identity”

(Robert Olen Butler). Told from multiple perspectives and spanning several decades, *Grass Roof, Tin Roof* begins with the story of Tran, a Vietnamese writer facing government persecution, who flees her homeland during the exodus of 1975 and brings her two children to the West. Here, she marries a Danish American man who has survived a different war. He promises understanding and guidance—but the psychic consequences of his past soon hinder his relationships with the family, as the children, for whom the war is now a distant shadow, struggle to understand the world around them on their own terms. In delicate, innovative prose, Strom's characters experience the collision of cultures and the spiritual aftermath of war on the most visceral level. *Grass Roof, Tin Roof* is “an affecting study on the slippery nature of home” (Los Angeles Times). “[Strom] explores the mysteries of loss, culture and identity, with skill, poignancy and imagination.” —Detroit Free Press

A detective from Anchorage, she has her own motives for investigating the possible murder in this isolated place, which can be accessed only by a tunnel. After a blizzard causes the tunnel to close indefinitely, Cara is stuck among the odd and suspicious residents of the town—all 205 of whom live in the same high-rise building and are as icy as the weather. Cara teams up with Point Mettier police officer Joe Barkowski, but before long the investigation is upended by fearsome gang members from a nearby native village. Haunted by her past, Cara soon discovers that everyone in this town has something to hide. Will she be able to unravel their secrets before she unravels?

A congresswoman and her son reveal how he survived a ten-year battle with opioid abuse—and what their family's journey to recovery can teach us about finding hope amid the unspeakable. “Beautiful and inspiring.”—Maria Shriver's Sunday Paper (Book of the Week) When Madeleine Dean discovered that her son Harry was stealing from the family to feed a painkiller addiction, she was days away from taking the biggest risk of her life: running for statewide office in Pennsylvania. For years, she had sensed something was wrong. Harry was losing weight and losing friends. He had lost the brightness in his eyes and voice, changing from a young boy with boundless enthusiasm to a shadow of himself, chasing something she could not see. Now her worst fears had come to light. *Under Our Roof* is the story of a national crisis suffered in the intimacy of so many homes, told with incredible candor through the dual perspectives of a mother rising in politics and a son living a double life, afraid of what might happen if his secret is exposed. In this honest, bracing, yet ultimately uplifting memoir, they discuss the patterns of a family dealing with an unspoken disease, the fear that keeps addicts hiding in shame, and the moments of honesty, faith, and personal insight that led to Harry's recovery. In a country searching for answers to the devastating effects of opioids and drug abuse, *Under Our Roof* is a ray of hope in the darkness. It is not only a love story between mother and son but also an honest account of a pressing national crisis by a family poised to make a difference.

We Met in December W. W. Norton & Company

The story of how Germans came to embrace the Third Reich. Germany in early 1933 was a country ravaged by years of economic depression and increasingly polarized between the extremes of left and right. Over the spring of that year, Germany was transformed from a republic, albeit a seriously faltering one, into a one-party dictatorship. In Hitler's First Hundred Days, award-winning historian Peter Fritzsche examines the pivotal moments during this fateful period in which the Nazis apparently won over the majority of Germans to join them in their project to construct the Third Reich. Fritzsche scrutinizes the events of the period - the elections and mass arrests, the bonfires and gunfire, the patriotic rallies and anti-Jewish boycotts - to understand both the terrifying power that the National Socialists came to exert over ordinary Germans and the powerful appeal of the new era that they promised.

For millions of people around the world, Tibet is a domain of undisturbed tradition, the Dalai Lama a spiritual guide. By contrast, the Tibet Museum opened in Lhasa by the Chinese in 1999 was designed to reclassify Tibetan objects as cultural relics and the Dalai Lama as obsolete. Suggesting that both these views are suspect, Clare E. Harris argues in *The Museum on the Roof of the World* that for the past one hundred and fifty years, British and Chinese collectors and curators have tried to convert Tibet itself into a museum, an image some Tibetans have begun to contest. This book is a powerful account of the museums created by, for, or on behalf of Tibetans and the nationalist agendas that have played out in them. Harris begins with the British public's first encounter with Tibetan culture in 1854. She then examines the role of imperial collectors and photographers in representations of the region and visits competing museums of Tibet in India and Lhasa. Drawing on fieldwork in Tibetan communities, she also documents the activities of contemporary Tibetan artists as they try to displace the utopian visions of their country prevalent in the West, as well as the negative assessments of their heritage common in China. Illustrated with many previously unpublished images, this book addresses the pressing question of who has the right to represent Tibet in museums and beyond.

From the New York Times bestselling author of *The Love Hypothesis* comes a new steamy, STEM-inist novella... Nothing like a little rivalry between scientists to take love to the next level. Mara, Sadie, and Hannah are friends first, scientists always. Though their fields of study might take them to different corners of the world, they can all agree on this universal truth: when it comes to love and science, opposites attract and rivals make you burn... Logically, Sadie knows that civil engineers are supposed to build bridges. However, as a woman of STEM she also understands that variables

can change, and when you are stuck for hours in a tiny New York elevator with the man who broke your heart, you earn the right to burn that brawny, blond bridge to the ground. Erik can apologize all he wants, but to quote her rebel leader—she'd just as soon kiss a Wookiee. Not even the most sophisticated of Sadie's superstitious rituals could have predicted such a disastrous reunion. But while she refuses to acknowledge the siren call of Erik's steely forearms or the way his voice softens when he offers her his sweater, Sadie can't help but wonder if there might be more layers to her cold-hearted nemesis than meet the eye. Maybe, possibly, even burned bridges can still be crossed.... To read Mara and Hannah's stories look for the novellas *Under One Roof*, available now, and *Below Zero*, coming soon from Berkley!

Home Is a Roof Over a Pig Penguin

Sometimes people aren't who you think they are. Everyone knew what was going on in Ballard, Washington: developers were building a giant shopping mall, but a house belonging to a feisty octogenarian named Edith Wilson Macefield was in the way. They offered her a million dollars. She told them to take a hike. Everyone knew that Barry Martin, head of the construction project, was involved in the push to get her out of the house so that the project could proceed without further delay. Everyone was wrong. When Barry took the job as construction supervisor for the shopping mall that was being erected around Edith's little house, he determined to make things as easy for her as he could. He didn't expect that she'd ask him to drive her to a hair appointment—but he did offer to help, after all. And it was in that one small gesture that an unlikely friendship was sparked, one that changed them both forever. The story of Barry Martin and Edith Macefield is a tale of balance and compassion, of giving enough without giving too much, of helping our elderly loved ones through the tough times without taking away their dignity. In the end, *Under One Roof* is a tale of grace, and one from which all of us can take solace and strength. From Barry and Edith we have much to learn about love and letting go and, just possibly, about seeing through fading light to find great joy.
